**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I have been a Sonic.net customer for 2 years and really appreciate that I can get my DSL and phone service from an honest company that is here to provide great products and services versus a company interested in becoming a communications giant and using their position in the market to overcharge me. Sonic.net is also committed to providing "Net Neutrality", which is very important to me.

By being given the choice to go with Sonic.net, I and other sonic customers are given the opportunity to let the market know what services are important to them. Without choice, customers have NO VOICE.

It is important to have competition in the market so that providers have incentive to provide the products, services and prices that the customers want versus what they can "get away with" because they are the only game in town.

PLEASE CONTINUE TO ALLOW CHOICE IN THE INTERNET / COMMUNICATIONS
MARKET.

Maureen Harris
